

# Current status of new energy microgrid pilot projects

Seven EPIC-funded microgrid projects funded in 2015 recently concluded their three-year implementation timelines. These seven projects demonstrated low-carbon-based microgrids for ...

This paper reviews the background and the concept of a microgrid, the current status of the literature, on-going research projects, and the relevant standards. It also presents ...

Up to 24 stationary microgrids will be installed across six Helene-affected counties, with two mobile "Beehive" microgrid hubs serving the entire state -- one in Western North Carolina and ...

Under the carbon neutrality goal, the projects to develop zero-carbon microgrids are emerging all over the world. However, the categories, trends, challenges, and future research ...

Pacific Gas and Electric Company (PGE) today announced its intent to award up to \$43 million in Microgrid Incentive Program (MIP) grant funding for the development of nine new ...

At Microgrid Knowledge, we write plenty of stories about the power resilience that on-site power delivers during cataclysmic events. And we also cover those which are built for every day, not just the rainy ...

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, (2) lawmakers implementing rules governing ...

Distributed energy and on-site power projects from Costco, Prologis and the U.S. Army are among those embracing microgrids. Microgrids are not just for emergencies. We learned that early this year.

The Commission seeks an expert in microgrid development to design and implement this demonstration project over a period of up to five years, including at least two years of operational demonstration.

The Office of Electricity announces 14 projects selected through the Community Microgrid Assistance Partnership (C-MAP) to advance microgrid innovations to bring energy reliability and ...
