What is a Finnish company?

The Finnish company was established to manufacture forest-based products in the country. It produces goods like fiber, silk, cotton, paper, and wooden furniture, all these products are highly demanded in the country. The company has its bases in all the Nordic and southern European countries.

What makes Finnish companies so successful?

Other industries, such as manufacturing and travel, are equally important in Finland as well. It's hard to place a pointer on any single thing that has made the top companies in Finland so successful. A highly-educated population is one undoubted contributor, and the Finnish "can-do" attitude in all walks of life is almost certainly another.
