

In our latest Energy Essentials podcast we introduce the Battery Energy Storage Systems (BESS) market in Ireland and Northern Ireland, discuss the key challenges facing it and ...

In a feature article that originally appeared in Vol.39 of PV Tech Power, Statkraft's Rory Griffin wrote about the challenges and opportunities encountered in developing Ireland's first 4-hour ...

Effective outdoor BESS maintenance in Ireland requires understanding local environmental challenges while adopting global best practices. By combining regular inspections with advanced monitoring ...

Statkraft has marked the official opening of the Cushaling Battery Energy Storage System (BESS) in Co. Offaly - Ireland's first 4-hour grid-scale battery system.

Our Battery Energy Storage Systems (BESS) and Energy Management System (EMS) are designed for outdoor applications, tailored to the needs of small and medium enterprises as well as industrial ...

What is a battery energy storage system (BESS) all-in-one cabinet? Building a BESS (Battery Energy Storage System) All-in-One Cabinet involves a multi-step process that requires technical expertise in ...

TSG Ireland delivers advanced grid-connected battery systems that support Ireland's transition to a low-carbon, electricity-led future. Battery energy storage helps stabilise grid fluctuations and reduce ...

SSE has acquired the project development rights for a 120MW/240MWh grid-scale battery energy storage system (BESS) project in Ireland's Midlands from UK-based renewable energy ...

Aghada is the location of ESB's first battery energy storage systems (BESS), providing 19MW (38MWh) of fast-acting energy storage to help provide grid stability in 2022. We opened our second facility at ...

ESB opened Ireland's largest BESS this month. The project is located at Poolbeg Energy Hub in Dublin and is part of a EUR300m battery investment plan.
