Nema 1 and A Nema 12 Enclosures Nema 4 and Nema 4X Enclosures Nema 7 Enclosures Size Temperature Both of these enclosures can be used indoors as well as outdoors. They are both dust resistant. They are also water resistant and corrosion resistant. NEMA 4X has an extra layer of corrosion resistance. Modern solar installations are no longer just arrays of photovoltaic (PV) panels; they are complex systems that require robust electrical enclosures to protect sensitive equipment and ensure ...

This small power dense system is purely based on pluggable breakers and rectifiers and can easily be configured to fit your required application, even in field.

The enclosures are specifically approved for use in solar power systems, designed in one piece monobloc, which provides excellent protection for inside electrical and electronic components.

Most of our enclosures are designed to NEMA3R and rated for outdoor use. White powder coating and quality manufacturing ensure a robust enclosure that will survive even the harshest conditions.

The outdoor battery enclosure is a housing, cabinet, or box that can be used outdoor and specifically designed to store or isolate the battery and all its accessories from the external environment.
