

Solar street light double-sided power generation panel

The DSC-X Double-Sided Solar Street Light by JSDSolar is a high-performance outdoor lighting solution designed for municipal, roadway, and large-scale projects.

X4S uses the unique designed double-sided PV module and tempered glass on the panel, which minimizes the risk of degradation of the panel, enabling long-term use.

Featuring dual-sided solar panels with 360° light absorption and a robust die-cast aluminum alloy housing, this integrated system delivers 30W-150W customizable illumination while withstanding ...

This high-performance solar powered LED light by Leadsun combines monocrystalline PV panels, long-life LiFePO4 batteries and a smart controller. Its modular LED design allows adjustable lighting ...

Upgrade your outdoor lighting with double-sided and three-sided solar wall lights, designed for ultra-wide illumination and maximum coverage. Featuring premium A-Class monocrystalline solar panels, these ...

The PTEROSAUR Series is the innovative double-sided power generation high-power integrated solar street light created by BlueSmart in 2021. The perfect combination of beauty and performance will ...

The Details of Double-sided solar panel solar Street Light (SL-X) The double-side solar panel has higher power generation and efficiency. Maximumly improved the power generation by 20%-50%. An ...

Independently designed double-sided solar panels, using high-efficiency double-sided solar cells, can increase the power generation by 30%, improve the photoelectric conversion efficiency.

At the heart of our revolutionary street lights lies the sophisticated double-sided solar panel technology. Unlike conventional single-sided panels, these advanced designs capture sunlight from both sides - ...

Using double-sided solar panels, with higher power generation and power generation efficiency, it is suitable for rainy, snowy and plateau areas. Intelligent dimming mode, adjusting the brightness ...
