

# Supercapacitor bank manufacturer in Bergen Norway

A Norwegian startup with the aim to empowering the future of energy storage through revolutionary supercapacitor electrodes.

Skeleton Technologies is the world's leading manufacturer of graphene-based supercapacitors. Rebuilding industry for a net-zero future.

We aim to manufacture leading edge supercapacitors for the global market. nanoCaps was founded Spring 2021 by researchers from the University of South-Eastern Norway (USN).

ULTRACAPACITORS deliver quick bursts of energy during peak power demands, then quickly store energy and capture excess power that is otherwise lost. They efficiently complement a primary ...

Our technology, scale, and expertise make CAP-XX a leader in supercapacitor innovation. Our supercapacitors are capable of delivering 2000% more power than Lithium Batteries. Ultra Thin. Ultra ...

With the Novac Calculator, you can estimate actual performance in just a few seconds: simply enter the main parameters (voltage, capacity, discharge current, ESR) and you will immediately get the ...

From ultracapacitor cells to fully integrated systems, SECHSA delivers engineered energy storage solutions optimized for real-world high power applications.

Jolta Batteries Pvt Ltd, an ISO Certified company is an advanced graphene based super capacitor manufacturer and energy storage system innovator with over 4 years of experience in the design ...
