

# The scam of waste photovoltaic panels exposed

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

Why are PV solar panels included in the Waste Electrical & Electronic Equipment Directive?

Thus, PV solar panels have been included in the European Union's Waste Electrical and Electronic Equipment Directive, which aims to maximize the collection, recycling, and recovery of valuable and hazardous materials from electronic waste to optimize the use of natural resources and to prevent toxic substances from entering the environment.

Are 'upselling scams' causing a surge in solar panel fraud?

However, homeowners making the most of the Government's solar panel drive have increasingly fallen victim to conmen. Citizens Advice has warned of a surge in solar panel fraud, particularly "upselling scams" in which cold-callers convince customers to upgrade technology they already have to meet fabricated legal "standards".

Do solar panels attract VAT?

From April 2022, energy-efficient equipment such as solar panels, insulation and heat pumps have attracted zero VAT, instead of 5pc, and will continue to do so until 2027. However, homeowners making the most of the Government's solar panel drive have increasingly fallen victim to conmen.
