

UK Server Rack 1500V

What is a 15u server rack?

15U server racks and data cabinets from Server Room Environments are available for quick delivery and are designed to house and protect sensitive IT servers, IoT and networking devices. Options for 15U racks include paint colour choices, front and rear door styles, standard and heavy-duty castors, blanking plates, fan trays and cable management.

What are server cabinets?

Server cabinets, sometimes called data cabinets or server rack cabinets, are a type of storage for rack mount servers. The majority can house 19" server racks (industry standard sizing). Server cabinets and computer cabinets are offered in a range of heights to suit the number of racks you want to mount and can be open frame or enclosed.

How tall is a server rack?

Each unit is 1.75 inches or 44.5 mm tall. Individual server racks are typically 1U, 2U, 3U or 4U high. Some units are supplied as half racks, where they are the same height but half the width of a standard unit. When choosing the cabinet for your application you should consider the number of server racks you want to mount.

Should I Mount my server rack into a cabinet?

One of the key benefits to mounting your server rack into a cabinet is security. Safeguarding your network and data is essential and using a computer cabinet helps to protect the hardware on which your network is built.
